

# BIG SKY OR BUST!

## THE 10TH ANNUAL TU TEEN SUMMIT RETURNS TO MONTANA IN 2023

**H**old on to your 10-gallon hat because TU's national leadership event for teens, the TU Teen Summit, is heading back to Montana once again in 2023. The Summit is where an awesome group of like-minded fishy high schoolers gather to share ideas, brainstorm ways to get youth involved with TU, complete a fisheries service project, take educational tours and host a set of cool guest speakers. Oh, and we also do a bit of fishing at the Summit as well!

### HERE ARE THE DETAILS:

**WHAT: 10TH ANNUAL TU TEEN SUMMIT**

**WHEN: JUNE 28-JULY 2, 2023**

**WHERE: CAMP WATANOPA ON GEORGETOWN LAKE, MONT.**

**Sawyer Maddux from Dallas, Ga.**

JUNIOR AT NORTH PAULDING HIGH SCHOOL

*The TU Teen Summit is... new experiences with like-minded people. A group of young people that share a love of fly fishing and conservation meet at the summit, forming friendships to last a lifetime. Days of fishing, learning and laughs were the highlight of my summer. The teen summit gave me the opportunity to get further involved with TU when the pandemic took away the opportunity to attend my local trout camp. I couldn't recommend it enough. Most importantly, those that attend the teen summit symbolize the need for young people to shape the future for conservation!*

**Spencer Belson from Andover, Mass.**

JUNIOR AT ANDOVER HIGH SCHOOL

*The TU Teen Summit is... adventure, exploration and camaraderie. It is catching wild fish from the finest trout waters in the country. It is meeting new friends that share your unmatched excitement for fly fishing and conservation. It is draw-dropping mountain vistas, rhododendron-choked streams and crystal-clear spring creeks. At the Summit, we learn what it means to be a steward of America's coldwater resources. We meet local activists and experts, forming lifelong connections and empowering us to protect the waters we love. I am truly honored to be part of this group of exceptionally passionate and knowledgeable youth.*
